

System Blueprint — Preview

This preview shows the core structure of the Ikwe AI Risk System, including the scoring model, baseline posture view, and a redacted example of audit outputs. Evidence basis: EQ Safety Benchmark release (n=948 responses across 79 scenarios).

WHAT YOU RECEIVE

Risk dimensions, scoring logic, and audit structure used in production audits.
Designed for builders who want to adapt the system within their own environment.

WHAT THIS IS NOT

This preview is not a full audit of your company. It shows the system architecture and example outputs only.

Benchmark indicators shown in this sample package: 54.7% baseline emotional-risk introduction rate, 43% baseline no-repair-after-harm rate, and 42–67% observed post-control score reduction range.
